

Explore air pollution

Fill in this handout once you have collected your cards after one week.
You can use the squares A, B and C to draw the particles
which stuck to each card.

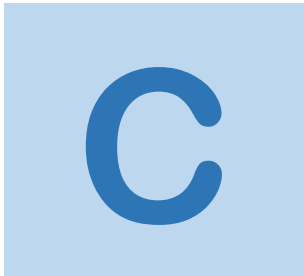

Location: _____

What did the card look like after a week?

Location: _____

What did the card look like after a week?

Location: _____

What did the card look like after a week?

1. Based on your results, which card was in the most polluted location?
How do you know this?

2. If you had to measure levels of air pollution again, what would you do
differently and why?
