

Mission Assignment: Explore how we can spend our money to help climate change

NATIONAL NUCLEAR  
LABORATORY

Code: COP26S-03\_01

What can you do as a school or individually to support COP26? Brainstorm some ideas and come up with an action plan below.

Consider one of your ideas and elaborate further.

Create solutions to these problems that might hinder the progress of your action plan.

- Lack of financing.
- Lack of support.
- Lack of influence.

Mission Assignment: Explore how we can spend our money to help climate change

NATIONAL NUCLEAR  
LABORATORY

Code: COP26S-03\_01

In the previous task, one of the problems was 'lack of influence'. To tackle this, you can make sure your voice is heard.

Write a letter to your local MP, a politician or climate activist and promote your school or community in order to get better eco-friendly systems. This could be more frequent buses, clean air zones, or to plant more trees.
