

Mission Assignment: Explore how to encourage investment in renewables

NATIONAL NUCLEAR
LABORATORY

Code: COP26S-01_04

Work in a group, in partners or as an individual to plan a presentation, talk or lecture to give your school, class or year group promoting different ways to get to school and to travel.

Plan:

Take a survey of a sample size of people of your choice, asking them how they usually get to school.

Fill the table below with your results:

Survey sample group- _____

Method of transport	Tally
Walking	
Travel by car	
Travel by bus	
Park and walk	
Biking	
By scooter	
By skateboard	

Write a few evaluative statements on your results, based on some of the trending variables across your survey group (where the school is, what transport systems are available, etc.).

Large empty rounded rectangular box for writing evaluative statements.
