

Create your own Paris Agreement for your school which everyone can buy into.

### My Paris Agreement

#### Considerations

---

---

#### What do I need to include?

---

---

---

---

#### How will I make sure everyone follows the rules?

---

---

#### What steps do I need to take to enforce my agreement?

---

---

---

Choose any country in the world (whether they are a participating country or not) to implement the Paris Agreement in and research into some areas that need to change. Assess current climate systems and suggest some changes that this country could make.

| Country | Changes to make |
|---------|-----------------|
|         |                 |
