

Mission Assignment: Mission to write

KS3-14-04

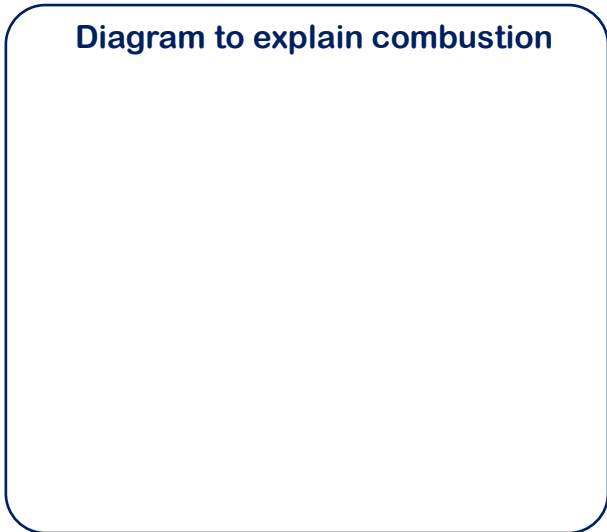

You are a science journalist. A house has burned down. Write a newspaper report to explain how it happened, with scientific explanations and pictures.

What happened for the fire to spread?

How did the fire start?

Diagram to explain combustion

What effect does the fire have on materials? The air? The people?

The scientific formula for combustion:

fuel combustion extinguish carbon dioxide oxygen hydrocarbon
carbon monoxide
