

Mission Assignment: Ask relevant questions about the life of insects

Wildlife expert, Mike Linley, will be answering questions about the life of insects during a LIVE lesson. What questions do you have for him? Write your questions in the butterfly and then cut it out and decorate it.

Ask your teacher to take a photo of your question and upload it to the Developing Experts platform, in the exemplar work section. Mike will try to answer as many questions as possible during the LIVE lesson. Don't forget to add your name and school!
